## PROFILE

3D artist and multimedia content creator currently producing 3D animated explainer videos, motion graphics, and interview content full time at TransFICC. Skilled with Blender, Adobe Premiere, DaVinci Resolve, and AVID Media Composer, and skilled with environment art, character design, texturing, and animation. Experience in both the creative and technical sides of production, skilled with camera work, editing, and post-production across freelance work and independent short films.

## WORK EXPERIENCE

### April 2026 - Current

#### Multimedia content creator - TransFICC London

- I am now working at TransFICC creating 3D animated explainer videos and interview content for their website and social media platforms. For animated content I create the assets, animation and do the editing. For Interviews I edit clips and add titles and subtitles. Examples of both of these are on my portfolio website.

### November 2025

#### Freelance Logo animation - TransFICC London

- I created an animated logo for TransFICC for them to use on their social media presentation videos. A video breakdown of this can be found on my portfolio website.

### August 2025

#### Freelance Logo animation - Talos London

- Produced a stylised logo animation using Blender. Can be found on my Portfolio website.

### July 2025

#### Freelance Logo animation - Tokenovate/iPushpull London

- I made 2 animated logos for a client for the 2 companies he owns. both can be found on my portfolio website.

### October 2024 - May 2025

#### Freelance 3D Character design (Remote)

- I created low poly PS1 style characters for an artist making an indie animated series. I designed, textured them and rigged them, including a rig that swaps textures on the face to show different eye and mouth expressions.
